CIR 2022

The 7th Int'l Conference on Inflammation Research (CIR 2022) will be held during November 25-27, 2022 in Guilin, China. This Conference will cover issues on Inflammation Research, and other related topics. It dedicates to creating a stage for exchanging the latest research results and sharing the advanced research methods in related fields.

CALL FOR PAPERS

Acquired Immunity
Anatomical Barriers
Antibody Therapy
Cancer Immunotherapy
Case Studies
Cell Mediated Immunity
Cellular Immunotherapy
Immune Response
Immune System Disorders
Immune System Modulators
Immune Therapy
Immunity Vitamins
Autoimmune Diseases
Inflammation and Cancer
Cardiovascular Diseases
Neurodegeneration
Inflammatory Diseases
Inhibitory Receptors
Innate Cancer Immunology
Innate Immune Evasion
Innate Immunity
Innate Molecular Immunology
Acute Inflammation
New Anti-inflammatory Drugs
Nitric Oxide, cytokines and Inflammation
Neural Regulation
Novel Mechanisms in Inflammation
Ocular Inflammation
Osteoarthritis, angiogenesis and inflammation
Plant Innate Immunity
Sleep and Inflammation
Suppression Immunotherapies
Therapeutic Applications

Venue

Located in the northeast of Guangxi Zhuang Autonomous Region in south China, Guilin is considered to be the pearl of China's thriving tourist industry on account of the natural beauty and historic treasures. Covering an area of about 27,800 square kilometers (10,734 square miles), the city is rather compact when compared with other major tourist cities in the country. The stunning landscape in which the city is situated has a kind of magic that is all its own. The strangely shaped hills or karsts, with the verdant vegetation ranging from bamboos to conifers together with crystal clear waters and wonderful caves make the city such an appealing destination. It is also an important cultural city with a history of more than 2,000 years. The city has been the political, economic and cultural center of Guangxi since the Northern Song Dynasty (960-1127).
